Misure tecniche Misure in mm - Riserva di modifiche senza preavviso

DPGI87

Gomito a 87° ispezionabile.
Temperatura massima di utilizzo 200 °C

| Ø | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|---|-----|-----|-----|-----|-----|-----|-----|
| X | 110 | 105 | 135 | 155 | 160 | 185 | 215 |
| Y | 180 | 170 | 200 | 200 | 225 | 250 | 270 |

DPIT

Ispezione con tappo.
Per combustibili gassosiliquidipellet

| Ø | 80 | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|---|-----|-----|-----|-----|-----|-----|-----|-----|
| H | 270 | 270 | 270 | 270 | 270 | 270 | 270 | 270 |

DPIS

Ispezione per combustibili solidi

| Ø | 130 | 150 | 180 | 200 | 250 | 300 |
|---|-----|-----|-----|-----|-----|-----|
| H | 440 | 440 | 440 | 440 | 440 | 440 |

DPTAPPO

Tappo cieco.
Elemento dotato di maniglia

| Ø | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|---|-----|-----|-----|-----|-----|-----|-----|
| H | 25 | 25 | 25 | 25 | 25 | 25 | 25 |

DPPF

Prelievo fumi.
Elemento provvisto di foro per l'inserimento di sonde, fornito con tappo

| Ø | 80 | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|---|-----|-----|-----|-----|-----|-----|-----|-----|
| H | 190 | 190 | 190 | 190 | 190 | 190 | 190 | 190 |

DPPT

Prelievo fumi con termometro.
Termometro con gambo inox 0+500 °C. Da non utilizzare con caldaie a condensazione

| Ø | 180 | 200 | 250 | 300 |
|---|-----|-----|-----|-----|
| H | 190 | 190 | 190 | 190 |

DPA

Adattatore mono maschio-doppia femmina

| Ø | 80 | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|---|----|-----|-----|-----|-----|-----|-----|-----|
| H | 70 | 70 | 70 | 70 | 70 | 70 | 70 | 70 |

DPAC

Adattatore doppia maschio-mono femmina

| Ø | 80 | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|---|-----|-----|-----|-----|-----|-----|-----|-----|
| H | 180 | 180 | 180 | 180 | 180 | 180 | 180 | 180 |

DPSC

Scarico condensa verticale.
Raccordo inox con filetto maschio

| Ø | 80 | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|----|------|------|------|------|------|------|------|------|
| H | 25 | 25 | 25 | 25 | 25 | 25 | 25 | 25 |
| ØF | 3/4" | 3/4" | 3/4" | 3/4" | 3/4" | 3/4" | 3/4" | 3/4" |

DPSCB

Scarico condensa con basamento.
Raccordo inox con filetto femmina

| Ø | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|----|------|------|------|------|------|------|------|

DPRT1

Rosone di copertura tondo.
Accessorio in inox. Installare come rosone estetico di copertura del foro nella muratura

| Ø | 100 | 130 | 150 | 200 |
|----|-----|-----|-----|-----|
| ØA | 159 | 189 | 209 | 259 |
| ØB | 350 | 380 | 400 | 450 |

DPRQ2

Rosone di copertura quadro regolabile.
Accessorio in inox. Installare come rosone estetico di copertura del foro nella muratura tetto inclinato

| Ø | 100 | 130 | 150 | 200 |
|---|-----|-----|-----|-----|
| A | 275 | 290 | 300 | 325 |
| B | 350 | 380 | 400 | 450 |
| C | 151 | 181 | 201 | 251 |

DPG1

Grembialina 1 10°-35° con base in piombo.
Conversa inox con giunzioni saldate. Abbinare alla fascia parapigioggia DPFP

| Ø | 80 | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|---|-----|-----|------|------|------|------|------|------|
| B | 625 | 625 | 700 | 700 | 700 | 700 | 700 | 800 |
| P | 625 | 625 | 1000 | 1000 | 1000 | 1000 | 1000 | 1000 |

DPFP

Fascia parapigioggia.
Installare sopra le grembialine. Sigillare la fascia sulla tubazione con opportuno mastice a tenuta

| Ø | 80 | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|----|-----|-----|-----|-----|-----|-----|-----|-----|
| ØA | 130 | 150 | 180 | 200 | 230 | 250 | 300 | 350 |
| ØB | 253 | 273 | 303 | 323 | 353 | 373 | 423 | 473 |

DPG2

Grembialina 2 piana con base in inox.
Conversa inox con giunzioni saldate. Abbinare alla fascia parapigioggia DPFP

| Ø | 80 | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|---|-----|-----|-----|-----|-----|-----|-----|-----|
| B | 390 | 390 | 485 | 485 | 485 | 485 | 590 | 590 |
| P | 390 | 390 | 485 | 485 | 485 | 485 | 590 | 590 |

DPG3

Grembialina 3 10°-35° con base in inox.
Conversa inox con giunzioni saldate. Abbinare alla fascia parapigioggia DPFP

| Ø | 80 | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|---|-----|-----|-----|-----|-----|-----|-----|-----|
| B | 600 | 600 | 650 | 650 | 750 | 750 | 800 | 850 |
| P | 600 | 600 | 650 | 650 | 750 | 750 | 800 | 850 |

Misure tecniche Misure in mm - Riserva di modifiche senza preavviso

DPPS

Piastre supporto da abbinare con DPES o DPSCB

Utilizzare viti e tasselli adeguati alla tipologia di parete o soffitto. Consultare la tabella del carico statico a pag. 56

| Ø | 80 | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|---|-----|-----|-----|-----|-----|-----|-----|-----|
| L | 230 | 250 | 280 | 300 | 330 | 350 | 400 | 450 |

DPMR

Supporto light con piastre.

Utilizzare viti e tasselli adeguati alla tipologia di parete o soffitto. Consultare la tabella del carico statico a pag. 56

| Ø | 80 | 100 | 130 | 150 | 180 | 200 |
|---|-----|-----|-----|-----|-----|-----|
| H | 165 | 165 | 165 | 165 | 225 | 225 |
| L | 215 | 215 | 215 | 215 | 280 | 280 |

DPPI

Piastra di fissaggio inclinabile.

Utilizzare viti e tasselli adeguati alla tipologia di soletta

| Ø | 100 | 130 | 150 | 180 | 200 | 250 |
|----|-----|-----|-----|-----|-----|-----|
| ØA | 150 | 180 | 200 | 230 | 250 | 300 |
| A | 150 | 150 | 150 | 150 | 150 | 150 |
| B | 250 | 250 | 250 | 250 | 250 | 250 |

DPFS

Fascia di sicurezza.

Fasce di sicurezza da ordinare

| Ø | 80 | 100 | 130 | 150 | 180 | 200 | 250 | 300 |
|----|-----|-----|-----|-----|-----|-----|-----|-----|
